

Computer registration

Department of Theoretical Physics (DFT)

Every computer connected to the DFT network **must** be registered and properly configured

IP Address	140.105.31.....
Wireless address	140.105.192.....
Indirizzo alfanumericots.infn.it

Address assigned by DFT Computer Service section.

FIRST NAME _____ FAMILY NAME _____

e-mail address: _____

If you don't have a permanent position at DFT give the expiration date of the registration DD/MM/YYYY: ___/___/_____

Please fill in block letters the information related to your computer.

Indirizzo di scheda Ethernet (wired network interface) e.g. Xx-xx-xx-xx-xx-xx	_ _ _ - _ _ _ - _ _ _ - _ _ _ - _ _ _ - _ _ _
Windows YES NO	XP/Pro XP/Home W7 W8 W10
LINUX YES NO	RH/Fedora/Centos Version
	Debian Version

	other(specify)
Apple YES NO	Mac OS X
Antivirus YES NO	If yes specify
	An antivirus software must be installed and updated on Windows Pcs.
	If yes specify
Firewall YES NO	

System Administrator :

.....
Name Surname

- **Every computer is assigned to an administrator** (he/she has the access to root, admin, or privilege account) **who is responsible for protecting his/her computer systems, keeping software as well as operating system and application security patches up-to-date**(L.318/99)
- System administrators must accept the GARR's usage policies, and regulations : [<http://www.garr.it/docs/garr-aup-00.shtml>]
- Users who misuse DFT computing and network resources or who fail to comply with DFT's usage policies are subject to a temporary or permanent deactivation of computer/network access

Please note that it's not possible to:

- install software that could compromise the security and/or the computer and network resources efficiency ;
- configure your PC with data that differs from the assigned one.

SYSTEM ADMINISTRATOR SIGNATURE

Required

.....
