

Computer registration

Department of Theoretical Physics (DFT)

*Every computer connected to the DFT network **must** be registered and properly configured*

IP Address	140.105.31..... 140.105.192.....
Wireless address	
Indirizzo alfanumericots.infn.it

Address assigned by DFT Computer Service section.

FIRST NAME _____ FAMILY NAME _____

e-mail address: _____

If you don't have a permanent position at DFT give the expiration date of the registration DD/MM/YYYY: ___ / ___ / _____

Please fill in block letters the information related to your computer.

MAC address (wired interface) e.g. Xx-xx-xx-xx-xx-xx	_ _ - _ - - _ - - - _ - - - _ - - - _ - - -
MAC address (wireless)	_ _ - _ - - _ - - - _ - - - _ - - - _ - - -
Windows YES NO	W/95 W/98 W/NT W/CE W/2000 XP/Pro XP/Home
LINUX YES NO	RH/Fedora <i>Version</i>
	Debian <i>Version</i>
	FreeBSD <i>Version</i>
	Suse <i>Version</i>
	other (<i>specify</i>)
Apple YES NO	MacOSx 8.x 9.x MacOSX
Antivirus YES NO	If yes specify
	An antivirus software must be installed and updated on Windows Pcs.
Firewall YES NO	If yes specify

System Administrator :

.....
Name Surname

- **Every computer is assigned to an administrator** (he/she has the access to root, admin, or privilege account) **who is responsible for protecting his/her computer systems, keeping software as well as operating system and application security patches up-to-date** (L.318/99)
- System administrators must accept the GARR's usage policies, and regulations : [<http://www.garr.it/docs/garr-aup-00.shtml>]
- Users who misuse DFT computing and network resources or who fail to comply with DFT's usage policies are subject to a temporary or permanent deactivation of computer/network access

Please note that it's not possible to:

- install software that could compromise the security and/or the computer and network resources efficiency ;
- configure your PC with data that differs from the assigned one.

SYSTEM ADMINISTRATOR SIGNATURE

Required

I hereby acknowledge that I have **read**, understood and **agreed** to the above conditions.

The above given information has to be constantly up-dated.
